

75L RED MEDICAL EMERGENCY RESPONDER BACKPACK

This bag is designed to carry medical equipment, including a gas cylinder. The bag's interior features four removable medical equipment bags (two small, one medium, one large) and a removable gas cylinder bag. The gas cylinder bag is suitable for use with up to a 5 litre cylinder. Manufactured from heavy duty top span PVC and is secured with an arched zip. It can be carried with the shoulder straps or the top-mounted carry handle, and a waist strap features for extra stability when using the shoulder straps. The bright colour, reflective taping and "RESCUE" encapsulated panel keep the emergency response medic bag visible.
